Men's Measurement Form

This is a comprehensive measurement form that will be used for all items including suits, shirts, trousers and others. Hence kindly submit this form as completed as possible so that future orders do not require additional measurements. Specific details or instructions and sizes out of the ordinary can be indicated in the special request box at the end of this form

Please make every effort to measure exactly and please keep style selection in mind when submitting measurements.

Please use the Icons indicated herein to recognize which of the following measurements are an absolute requirement for each type of garment. Not submitting one or more of these required measurements may result in an inaccurate fit. Please take all efforts to be as precise as possible but do not measure three dimensional measurements too snugly.

Suits

Pants

Shirts

ALL THREE DIMENSIONAL MEASUREMENTS *MUST*** BE TAKEN OFF THE BODY.**

Chest/bust, waist, stomach, hips, U crotch and thighs etc are three dimensional measurements.

Please try your best to take as close a measurement from the body without the tape measure being too tight or snug.

Should you have an image of yourself that can be emailed to us, please do so, as this will help us proportion the item better. If you do have access to a digital camera or scanner, please email us front and side silhouette images for better results.

If you have any special instructions about how you would like your clothes to fit, or anything that you think would help us to determine your measurements, please add them here. Also, for special considerations, like different sleeve lengths for left and right arms or one shoulder lower than the other, please indicate that here. *It is recommended that for large sizes, for the sake of better proportioning, the FLEXED BICEP CIRCUMFERENCE and the ARMHOLE circumference be included in the comments field below as well.*

(Kindly double check all details before submitting your measurements)

You can print this form and use it as a template to prepare your measurements for submitting them.
